

**Amendments to the Specification:**

**Please replace the paragraph on page 87, lines 1-5 (which begins with "It is to be appreciated . . .") with the following amended paragraph:**

It is to be appreciated that a cylindrical or other leaf portion may or may not have an opening therethrough. In the situation where an opening is desired, the opening may or may not be circular. **Figure 30** shows leaf portion ~~[[1855]]~~ 1865 with a "clover-leaf" opening therethrough.
